STATEMENT as of March 31, 2015 for the AmeriHealth District of Columbia, Inc

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

AmeriHealth District of Columbia, Inc. (the Company) was incorporated on November 30, 2012 for the purpose of providing prepaid managed care to Medicaid enrollees in the District of Columbia. The Company is a wholly owned subsidiary of AmeriHealth Caritas Health Plan (ACHP). On May 1, 2013, the Company acquired certain tangible and intangible assets from DC Chartered Health Plan (DC Chartered) and assumed responsibility for medical coverage of the acquired Medicaid membership on that date.

The Company operates under a license issued by the Government of the District of Columbia Department of Insurance, Securities and Banking (DISB). Effective January 1, 2014, the Company entered into a contract with the Centers for Medicare and Medicaid Services (CMS) to provide prepaid healthcare services, including Medicare Part D prescription drug coverage, to eligible Medicare enrollees.

The Company’s premiums revenue for the period ended March 31, 2015 is comprised of revenue received from the District of Columbia Department of Health Care Finance (DHCF). The Company’s contract with DHCF relating to the Medicaid managed care program expires on September 30, 2015 and includes options for DHCF to renew through April 30, 2018. The Company’s contract with CMS expired on December 31, 2014 and was not renewed. All contracts relevant to the Medicare program, including but not limited to reinsurance and administrative services, also ended effective December 31, 2014.

A. Accounting Practices

The Company prepares its statutory financial statements in conformity with the accounting practices prescribed or permitted by the DISB. The DISB recognizes only statutory accounting practices prescribed or permitted by the Government of the District of Columbia for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the District of Columbia Insurance Code. The National Association of Insurance Commissioners’ (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the Government of the District of Columbia.

Currently, “prescribed” statutory accounting practices are interspersed throughout the state insurance laws and regulations, NAIC SAP, and a variety of other NAIC publications. “Permitted” statutory accounting practices encompass all accounting practices that are not prescribed but are permitted by the domicile state department of insurance; such practices may differ from state to state, may differ from company to company within a state, and may change in the future.

The Company’s net (loss) income and capital and surplus as stated on a NAIC SAP basis and on the basis of practices prescribed or permitted by the Government of the District of Columbia are the same at March 31, 2015 and December 31, 2014.

A reconciliation of the Company’s net (loss) income and capital and surplus between the NAIC SAP and practices prescribed by the District of Columbia is shown below:

20. Fair Value Measurements

Statement of Statutory Accounting Principles (SSAP) No. 100, *Fair Value Measurements*, which defines fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair value measurements. An asset's fair value is defined as the price at which the asset could be exchanged in an orderly transaction between market participants at the statutory statement of admitted assets date. A liability's fair value is defined as the amount that would be paid to transfer the liability to a market participant, not the amount that would be paid to settle the liability with the creditor.

The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with significant unobservable inputs (Level 3). An asset's or liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Level 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Level 1 – Unadjusted quoted market prices for identical assets or liabilities in active markets. Market price data is generally obtained from a major exchange or dealer markets.

Level 2 – Input other than quoted market prices included in Level 1 that are observable for the asset through corroboration with market data at the measurement date. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in nonactive markets, interest rates, and yield curves. An instrument is classified as Level 2 if the Company determines that unobservable inputs are insignificant.

STATEMENT as of March 31, 2015 for the AmeriHealth District of Columbia, Inc
NOTES TO FINANCIAL STATEMENTS

Level 3 – Unobservable inputs that are supported by little or no market activity that reflect management's best estimate of what market participants would use in hypothetically pricing the asset at the measurement date.

The Company has no financial assets or financial liabilities that are required to be measured at fair value on a recurring basis.

The fair value of other financial assets, principally cash and short-term investments, approximate their carrying value at March 31, 2015 and December 31, 2014, respectively, because of the short maturity of such items.
